

MICRO POWDERS, INC.

Specialty Micronized Wax Additives

HC-4001: DRY SHAMPOO WITH MICROSORB 988S (Enhanced oil absorbance provided by Microsorb 988S in easy to disperse and flowable powder formulation)

| INGREDIENT | INCI NAME | % W/W | SUPPLIER |
|-----------------------------|---|-------------|---------------------|
| Phase A | | | |
| Microsorb 988S | Synthetic Wax / Calcium Silicate / Silica | 25.00 | Micro Powders, Inc. |
| Corn PO4 PH "B" | Corn Starch | 50.00 | Agrana Starke GmbH |
| Organic Tapioca Natural | Tapioca Starch | 10.00 | Agrana Starke GmbH |
| Colloidal Oat Flour-Organic | Oat Flour | 5.00 | Natural Sourcing |
| Clay-Rose | Kaolin | 10.00 | Lotion Crafter |
| Total | | 100% | |

Procedure

1. In a blender jar, weigh Phase A ingredients together.
2. Blend Phase A ingredients for 1.5 minutes at high speed of blender.
3. Open the cap, scrape and clean the blender jar walls & blade with bristle brush.
4. Again, blend at high speed for 1.5 minutes.
5. Check for any undispersed particles by making a drawdown on a piece of White paper. If any undispersed particles are visible continue to blend at high speed for 30 second intervals until completely dispersed.
6. Store the batch in an air-tight container.
