

NatureFine H325

Finely micronized hydrogenated castor oil for use in industrial coatings and agrochemical products

Features and Benefits

- Naturally derived wax
- Adds slip, lubricity and rub resistance to industrial and graphic arts coatings
- Biodegradable to OECD 301 test standard
- Adds hydroxyl functionality (>155)
- Provides anticaking, dry flow and release to fertilizer products
- Made exclusively with SuCCESS™ sustainable castor oil

Composition

Hydrogenated castor oil

Renewable Carbon Index

>95%

Recommended Addition Levels

1.0 - 20.0% (on total formula weight)

Systems and Applications

Seed coatings and other agricultural products. Granulation aid. High biocontent coatings. Water based, solvent based and energy curable coatings and inks. Industrial coatings (including plastic and metal); stains, sealers and varnishes; wood coatings; printing inks and OPV's (including flexo and gravure); powder coatings interior and exterior can and container coatings; coil coatings.

Typical Properties*

	<u>NatureFine H325</u>
Melting Point °C	85 - 88
Density @ 25 °C (g/cc)	0.99
Mean Particle Size (µm)	8.0 - 12.0
Maximum Particle Size (µm)	31.00
